Graphene Oxide Detox

What exactly is Graphene Oxide and why is it in the Covid Vaccinations? Below are links to various articles and videos that can hopefully explain this. I will also add information (below) on how to possibly purge this poison from your body.

As always, please do your own research.

Graphene has been found in vaccines, physiological saline, masks, PCR swabs, among other protection elements. And it makes people pseudomagnetic.

Urgent Announcement: COVID-19 Is caused by Graphene Oxide introduced by several ways into the body. Today, La Quinta Columna has made an urgent announcement that they hope will reach as many people as possible, especially those involved in health and legal services, as biostatistician Ricardo Delgado, Dr. José Luis Sevillano and the team of researchers and professors with whom they have been conducting their research have confirmed the presence of graphene oxide nanoparticles in vaccination vials.

Purging Graphene Oxide From Your Body

Richardo Delgado, who is a part of La Quinta Columna, has successfully tested an inexpensive way to remove magnetic graphene nano-particles from the human body after they were injected via a covid jab (aka vaccine). If you know someone

who has had a Pfizer, Moderna, or Astra Zeneca covid-jab, which all contain graphene oxide nanoparticles, or whose body now sticks to magnets, then they need to see this video so that they can get rid of the magnetic nano-particles. You will see him describe what to do. This video contains subtitles. I have listed the products he mentions and also Amazon links if you wish to purchase online.

ASEA Redox signaling molecules is called the 'Water of Life' because it reactivates gene signalling pathways which get shut off by Graphene Oxide Toxicity. ASEA Redox enables your cells to increase the endogenous glutathione production by a whopping 500-800%, thus detoxifying Graphene Oxide Nanoparticles and spike protein, optimally. According to scientific research, ASEA Redox signaling molecules increase the capacity of cells to detox by 4 fold and may increase mitochondria production by 30% after a fortnight. This meta anti-oxidant has the potency of an antidote and because it's native to the body, the benefits of consuming ASEA will increase with continued use.
